Parent Involvement

Parent Involvement Policy

- Mountain Sky Junior High School believes parents, legal guardians and family who are involved in supervising a child's education are critical partners in the educational process. Current research indicates that when families are involved in their child's education in positive ways, children achieve. This results in higher grades and test scores, better attendance at school, more positive attitudes and behavior, graduation at higher rates, and greater enrollment in higher education.
- It is the belief of the Mountain Sky educational community that involving parents, legal guardians, and family members in a comprehensive role in educating their child is crucial. With this as our focus, parents will be encouraged to participate in a comprehensive process of viewing and evaluation of the Title I program.
