

Equitable Outcomes for All - Advisory Committee Agenda

Meeting Date: 10.26.22

Time: 4:30 pm – 6:00 pm

Location: Navajo Room (DO)

BRING: Laptop (If possible)

Vision:

Washington Elementary School District (WESD) is proud to serve a diverse population of over 20,000 students. Our students and their families represent multiple ethnicities and a wide range of home languages and cultures. The varied talents, backgrounds and expertise of our students' families and community members greatly support student success. As educators, WESD staff members understand that all our students need to see a strong connection between their home life, their community and their school because these connections strengthen a student's sense of belonging and motivation. Learning depends upon social interaction and students actively construct knowledge and understanding by connecting their experience of home culture, language and life experiences with what they learn in school. Therefore, WESD leadership and staff place a high priority on being deeply knowledgeable about each student's unique home and community experiences and cultural background. School leaders, staff, students, families and community members work in partnership to develop practices and make decisions that create and continuously improve equity, diversity and inclusion in WESD.
